Cathode Ray Tube (CRT) Products include Cathode Ray Tubes and finished products that contain a Cathode Ray Tube such as Televisions and Computer Monitors.

Important Date	
Deadline to Request Exclusion from Litigated Class	February 24, 2023

A Federal Court authorized this Notice. This is not a solicitation from a lawyer.

- A class action lawsuit that includes direct purchasers of CRT Products is currently pending.
- Plaintiffs claim that Defendants (listed below) and Co-Conspirators engaged in an unlawful conspiracy to fix, raise, maintain or stabilize the prices of Cathode Ray Tubes. Plaintiffs further claim that direct purchasers of televisions and monitors that contain a cathode ray tube from the Defendants may recover for the effect that the cathode ray tube conspiracy had on the prices of televisions and monitors. Plaintiffs allege that, as a result of the unlawful conspiracy involving cathode ray tubes, they and other direct purchasers paid more for CRT Products than they would have paid absent the conspiracy. Defendants deny Plaintiffs' claims.
- On August 1, 2022, the District Court certified a direct purchaser plaintiff class. A copy of the Order granting class certification is available on the class website at **www.CRTDirectPurchaserAntitrustSettlement.com**. The class consists of "All persons and entities who, between March 1, 1995 and November 25, 2007, directly purchased a CRT Product in the United States from any Defendant or any subsidiary or affiliate thereof, or any co-conspirator or any subsidiary or affiliate thereof. Excluded from the class are defendants, their parent companies, subsidiaries or affiliates, any co-conspirators, all governmental entities, and any judges or justices assigned to hear any aspect of this action."
- Your legal rights will be affected whether you act or don't act. This Notice includes information on the certified class and the continuing lawsuit. Please read the entire Notice carefully.
- You may exclude yourself from the class by submitting a request for exclusion postmarked by **February 24, 2023**.

Your rights are explained in this Notice.

4. What is this lawsuit about?

The lawsuit alleges that Defendants and Co-Conspirators conspired to raise and fix the prices of CRTs and the CRTs contained in certain finished products for over ten years, resulting in overcharges to direct purchasers of those CRTs and certain finished products containing CRTs. The complaint describes how the Defendants and Co-Conspirators allegedly violated the U.S. antitrust laws by establishing a global cartel that set artificially high prices for, and restricted the supply of CRTs and the televisions and monitors that contained them. Defendants deny Plaintiffs’ allegations. The Court has not decided who is right.

5. What is a Cathode Ray Tube Product?

For the purposes of the class definition, Cathode Ray Tube Products (or “CRT Product”) means Cathode Ray Tubes of any type (e.g., color display tubes and color picture tubes) and finished products which contain Cathode Ray Tubes, such as Televisions and Computer Monitors.

6. What is a class action?

In a class action, one or more people, called class representatives, sue on behalf of people who have similar claims. All these people are members of the class, except for those who exclude themselves from the class.

If the Plaintiffs obtain money or benefits as a result of a trial or future settlement, you will be notified about those settlements at that time. Important information about the case will be posted on the website, www.CRTDirectPurchaserAntitrustSettlement.com as it becomes available. Please check the website to be kept informed about any future developments.

All persons and entities who, between March 1, 1995 and November 25, 2007, directly purchased a CRT Product in the United States from any Defendant or any subsidiary or affiliate thereof, or any Co-Conspirator or any subsidiary or affiliate thereof.
